<ul style="list-style-type: none">• Processing Facility: advanced equipment, quality control lab, export-grade packaging

Yellowfin Tuna

Thunnus albacares

Yellowfin tuna is a highly prized species known for its firm, pink to dark red flesh. It is a popular choice for sashimi, sushi, and grilling. This species is found in tropical and subtropical oceans worldwide.

Habitat: Tropical and subtropical waters worldwide

Size: Fishing Methods: Longline & Handline (GG/WR)

Sizes: 1-1.4kg, 1.4-1.8kg, 1.8-3.5kg, 3.5-10kg, 10-19kg, 20kg+

Bigeye Tuna

Thunnus obesus

Bigeye tuna is highly valued for its fatty, flavorful meat with a deep red color. It is particularly prized for sashimi and sushi. The name comes from its unusually large eyes.

Habitat: Tropical and temperate waters worldwide

Size: Fishing Methods: Longline & Handline (GG/WR)

Sizes: 1-1.4kg, 1.4-1.8kg, 1.8-3.5kg, 3.5-10kg, 10-19kg, 20kg+

Skipjack Tuna

Katsuwonus pelamis

Skipjack tuna is the most abundant tuna species, known for its dark red meat and strong flavor. It is commonly used in canned tuna and is popular for its sustainability and affordability.

Habitat: Tropical and subtropical waters worldwide

Size: Sizes: 1-1.4kg, 1.4-1.8kg, 1.8-3.5kg, 3.5-10kg, 10-19kg

Albacore Tuna

Thunnus alalunga

Albacore tuna, also known as white tuna, is prized for its mild flavor and white to light pink meat. It is commonly used in canned tuna and is excellent for grilling and searing.

Habitat: Temperate and tropical waters of all oceans

Size: One size

Swordfish

Xiphias gladius

Swordfish is a large, highly migratory predatory fish characterized by its long, flat bill. Its firm, meaty texture and mild flavor make it excellent for grilling, broiling, and baking.

Habitat: Tropical and temperate oceans worldwide

Size: Sizes: 10-24kg, 25kg+

Marlin

Makaira indica

Marlin is one of the largest and fastest fish in the ocean. Available in three types: red (merah), black (hitam), and white (putih). Its firm, flavorful meat is excellent for grilling and smoking. Marlin is highly prized in sport fishing and commerci...

Habitat: Indo-Pacific tropical and subtropical waters

Size: Sizes: 30-150kg, 150kg+ (3 types: merah/hitam/putih)

Wahoo

Acanthocybium solandri

Wahoo is a fast-swimming predatory fish known for its delicate, white meat with a slightly sweet flavor. It is excellent for grilling, baking, and making ceviche. Wahoo is a prized game fish.

Habitat: Tropical and subtropical waters worldwide

Size: Sizes: 2-4kg, 4kg+

Oilfish

Lepidocybium flavobrunneum

Oilfish is a deep-water species with firm, white meat and a rich, buttery flavor. It is often compared to Chilean sea bass in texture. The fish gets its name from its high oil content.

Habitat: Deep tropical and temperate waters worldwide

Size: Sizes: 4-6kg, 7-9kg, 10kg+

Squid

Loligo spp.

Squid is a versatile cephalopod prized for its tender meat and mild, slightly sweet flavor. It can be prepared in numerous ways including frying, grilling, stuffing, and stewing. Extremely popular worldwide.

Habitat: Coastal and oceanic waters worldwide

Size: Sizes available upon request

Illex Squid

Illex illecebrosus

Illex squid, also known as shortfin squid, is a fast-growing species prized for its firm texture and mild flavor. It is excellent for frying, grilling, and is commonly used in Asian and Mediterranean cuisines. Highly valued in commercial markets.

Habitat: North Atlantic and Pacific waters

Size: One size (sizes available upon request)

Sickle Pomfret

Pampus argenteus

Sickle pomfret, also known as silver pomfret, is a highly valued fish with delicate, white flesh and a mild, sweet flavor. It is prized in Asian cuisines, especially for steaming and pan-frying. A premium seafood delicacy.

Habitat: Coastal waters of the Indian and Pacific Oceans

Size: One size (sizes available upon request)

Mahi Mahi

Coryphaena hippurus

Mahi Mahi, also known as dolphinfish, is a fast-growing pelagic fish with firm, pink flesh and a mild, slightly sweet flavor. It is excellent for grilling, baking, and making ceviche. Popular in tropical and subtropical cuisines worldwide.

Habitat: Tropical and subtropical waters worldwide

Size: Sizes: 1-2kg, 2-4kg, 4kg+
